GRANITE CURBING PLANS BURNED IN QUARRY'S OFFICE

Street Paving Delayed While New Specifications Are Being Forwarded.

City Engineer Favors Crushed Rock for Tarriva Experiment.

FEARS STREETS WILL GRIND

Lightning striking and destroying the office of the granite quarry at Lithonia, Ga., will delay the paving of Broadway, Jefferson street and Tenth street indefinitely, though not for long, it is hoped. The office of the quarry burned and with it the specifications for the curbing granite. The company sent to City Engineer Washington for new specifications. In the meantime the bitulithic company is holding its plant at Knoxville, Tenn. The streets cannot be paved until the curbing is set and there is not sufficient curbing on hand to complete Broadway and Jefferson street.

Tarriva Plans.
City Engineer Washington is not enthusiastic over the plan to spread tarriva on the gravel streets, without first adding a layer of crushed rock. He says it is a well known fact that the gravel used on Paducah streets when disturbed is quite soft, and if the surface of the streets is scorched and this tar is spread over it, the streets will be ground to powder and the tarriva will not even have a fair test. He says those Chicago streets on which it is used, have a fine foundation carefully laid and rolled and then over layer of crushed rock this tarriva is spread, making a macadam roadway. The theory is that the tar holds the stones in place and prevents the street grinding up under traffic. According to Mr. Washington, the first requirement of a good street is the good foundation and unless that is substantial the surface will soon deteriorate.

PREFERS HER \$600 SALARY AS A CLERK TO \$1,000,000.

Washington, July 14.—Mrs. Anna Cammuck Hardesty, a clerk, at \$600 a year in the postoffice department, the other day declined positively to act on the advice of friends and counsel and contest the will of her father, John W. Cammuck, a retired farmer, who died in June, leaving an estate of \$2,000,000. By the terms of his will the late millionaire left the estate to his second wife, stepmother of Mrs. Hardesty, and a child by that marriage, cutting off Mrs. Hardesty with the income from \$50,000 for her lifetime.

She had been advised that she could probably secure about \$1,000,000 of the estate. She married against her father's orders, was afterwards divorced, and he refused to receive her back. The notoriety of the courts is her objection to filling the suit.

ROB AMERICAN CONSULATE.

\$40,000 Secured by Revolutionists at Tabriz, Persia.

Washington, July 13.—The state department received a dispatch from Consul Doty at Tabriz, Persia, recently the scene of so much fighting, saying that the royalists had robbed the business houses, which also was the residence of the chancellor of the United States consulate, of \$40,000. The position of chancellor, it is explained at the state department, is simply that of a clerk.

It is not stated whether any American funds were taken.

WEATHER.

CLOUDY

Partly cloudy with occasional showers and not much change in temperature tonight or Wednesday. Highest temperature yesterday, 80; today, 78.

Bryan Will be Notified at Lincoln of His Nomination and Kern Later at His Home at Indianapolis, Ind.

Democratic National Committee Follows Example of Republican Treasurer in Declaring for Publicity.

Lincoln, Neb., July 14.—The national Democratic committee visited Bryan and Kern at Fairview and decided to hold the Bryan notification at Lincoln, August 12. Kern will be notified at Indianapolis later. Campaign plans were discussed. It is probable Bryan will remain at Lincoln until Labor day, when he will make an address at Chicago. Then he will begin a whirlwind tour through the doubtful states, including Indiana, Illinois, Iowa, Kansas, Michigan, Ohio, New York, New Jersey and Rhode Island. New York is anxious for Bryan to spend as much time as possible there. Kern will leave this evening for Indianapolis. The chairman of the national committee is unsettled. Campaign, of Michigan; Atwood, of Kansas; and James and Woodson, of Kentucky, are regarded the likeliest candidates.

At Bryan's suggestion the committee adopted a resolution to accept no contributions from corporations and no contributions of more than \$10,000. They will make all contributions exceeding \$100 public.

Gathrie Jubilant.
Guthrie, July 14.—Governor Haskell and the returning delegation from Denver were given a great ovation. They were greeted with cannon, whistles and bells. Haskell announced he will make 40 speeches for Bryan.

HEAT VICTIM.
Mr. Will Cavanaugh, a blacksmith, who came here from Hopkinsville two weeks ago and is working at Parker's shop on Second street, was overcome with heat yesterday afternoon. Last night he recovered sufficiently he thought, to go to work. At 11 o'clock this morning he was overcome with heat again. A physician was called both times to attend him.

He will make 40 speeches for Bryan.

JAMES CHANDLER SAYS HE WAS DEFENDING SELF.

Kansas City, July 14.—James Chandler, said to be a nephew of former Governor Stephens, of Missouri, is in jail accused of killing F. L. Mackay. They quarreled over money. Chandler claims self-defense. He said Mackay beat him and he stalked Mackay because he feared for his life. Mackay formerly lived in Oklahoma.

NEW ROAD

Through the efforts of Deputy United States Marshal Elwood Neel a new road has been opened beginning at his farm on the Mayfield and Metropolis road and extending to the Metropolis and Lake road. When the road is completed a petition will be circulated for a new rural route, which will cover that territory.

Sheriff and Prisoner Escape.

Russellville, Ky., July 14. (Special).—Rufus Browder, negro slaver of James Cunningham, was brought to town this morning from the woods, where the sheriff had him in hiding to escape a mob of 200, which sought to lynch him last night. He was accompanied here by troops which left later. A mob is feared tonight. Feeling is high.

COUNTY SCHOOL ELECTION HELD SAT., AUGUST 1

Superintendent S. H. Hillington, of the county schools, announced today that the election under the new law for school trustees will be held the first Saturday in August. Voters are urged to go to their respective school house districts and vote for one trustee for a two-year term. There are 13 districts. Superintendent Hillington will prepare a list of election officers for the August election, which he will submit for ratification to the county election board, composed of Messrs. Will Farley and J. S. Ross and Sheriff John W. Ogilvie.

JOHN L'S WIFE FIGHTS DECREE.
Mrs. Sullivan Says She Has No Notified Her Husband's Embassy.

Providence, R. I., July 14.—Mrs. John L. Sullivan will oppose the suit for divorce which her husband, the former heavy-weight champion, is bringing. The woman lives with her sister in Centerville.

Mrs. Sullivan said she was not aware her husband had taken legal steps to secure a divorce. All she knew had been learned from a man sent by her husband to round her on the subject.

"He told me," said Mrs. Sullivan, last evening, "that my husband had a chance to marry a woman who has a lot of money. I said I was willing to live with my husband if he would stop drinking, but that I would oppose his getting a divorce. When I wanted one he opposed me and now I'll oppose him."

Mrs. Sullivan said that when her father was dying at Centerville, his father was in Europe with an actress named Livingstone, whom he was passing off as his wife.

DEVOTED MOTHER; CHRISTIAN LADY GOES TO REWARD

Mrs. B. B. Griffith Succumbs to Her Malady at Early Hour This Morning.

Wife of Well Known Physician Buried Tomorrow.

MEMBER METHODIST CHURCH

Long weeks of suffering culminated in the death of Mrs. Isabelle Griffith, wife of Dr. B. B. Griffith, at her home, Tenth and Jefferson streets, this morning at 2:30 o'clock, from stomach trouble and heart disease. Mrs. Griffith had been sick nearly two weeks, and for the last week her death was expected at any time. In her death the city loses one of the finest Christian characters.

Mrs. Griffith was born at Sharp, Marshall county, October 16, 1864, the daughter of Mr. B. Dishman and Rachael Doffman. Her father died only a few weeks ago in Alabama at a ripe old age. Her girlhood and early married life were spent in the country where she was widely connected and known. Twenty-three years ago Mrs. Griffith and Dr. Griffith were married and twelve years ago they moved to Paducah, where they have since resided.

Four children survive Mrs. Griffith: Miss Carrie Soule Griffith, Mr. Benjamin B. Griffith, Mary Belle Griffith and Rachel Griffith. Four brothers of her immediate family are living, Messrs. Charles and Calvin Griffith, of New Mexico; Alonzo Griffith, of Ansonia, Ala.; and Bret Griffith, of Sharp.

Mrs. Griffith was a life-long member of the Methodist Episcopal church south, and through a busy life always took an interest in her church. A year or so ago Mrs. Griffith suffered an attack of sickness similar to the one which resulted in her death this morning. The funeral will be Wednesday morning at the Broadway Methodist church, at 10 o'clock, and Dr. G. T. Sullivan, the pastor, and the Rev. J. W. Blackard, presiding elder of this district, will conduct the ceremony at the church and cemetery.

The pallbearers will be: Dr. W. V. Owen, Dr. H. H. Duley, Mr. W. B. Walters, Mr. W. L. Young, Sheriff John W. Ogilvie and Mr. L. B. Ogilvie. The burial will be in Oak Grove cemetery.

FIRST VICTIM

T. H. Reed, who runs a grocery on Boyd street between Ninth and Tenth streets, was the first man to be arrested for failing to comply with the new ordinance which provides that a license of \$250 a year must be paid for selling "non-intoxicating" drinks or beers that contain less than 2 per cent of alcohol. Informants reached the police that Reed was selling the drinks that are under the ban and the arrest followed at the instance of License Inspector Hicks. The case will be heard in police court July 16.

LITTLE CYPRESS HAS TELEPHONE COMPANY OF OWN

Little Cypress, July 14. (Special).—Prominent citizens met here last night and organized a telephone company with a capital stock of \$1,000 to operate a local telephone exchange. The capital stock may be increased later and the construction of the exchange will begin within two weeks. Already 70 subscribers are pledged and many more have expressed a willingness to take connection whenever the exchange is in operation.

Those citizens who met to organize last night were: Dr. E. G. Goodloe, A. L. Roark, J. H. Lackey, George Loftin, W. E. Hayden, Virgil Hoover, Holland Bros., Ben J. Story and Will Johnson, all financially able to carry their project to a successful conclusion. A local exchange will be operated at first, but some arrangements will be made with the East Tennessee Telephone company or the independent Telephone company of Paducah, whereby the local subscribers can have direct service to Paducah. Officers for the new company were elected last night as follows: Dr. E. G. Goodloe, president; W. E. Hayden, vice president; Ben J. Story, secretary and treasurer.

Flanagan of America, Wins Hammer Throw and Breaks Professional and Amateur Records of England

Immense Throng is Wonderstruck by Grandeur of Amphitheater, in Which Olympian Games Are Held.

London, July 14.—John J. Flanagan, of New York, won the final hammer throw in the Olympic games. His record was 170 feet 4 1/2 inches. He broke the Olympic record and also the professional and amateur records of England. Two Americans, Melvin Sheppard and James Sullivan, remain in the final 1,500 metres run today.

Sheppard won the final in the 15 metres run. The time was 4:03 2-5. McGrath, of New York, was second in the hammer throw; Walsh, of Canada, was third.

First Day's Results.

London, July 14.—In the 1,500 metre race, in which the greatest interest centered, the record for the distance was smashed. Melvin W. Sheppard, of the Irish-American Athletic club, New York, was the first to accomplish the trick, when, in the second heat, pressed hard by his team mate, J. P. Halstead, he ran the distance in 4:05, just 2-5 of a second faster than made by J. Lightbody, of the University of Chicago, at the Olympic games at St. Louis in 1904.

J. P. Sullivan, of the Irish-American Athletic club, and Lightbody, who were first and second respectively in the first heat of this event, took longer to cover the distance but they were not pressed and doubtless could have done better if necessary.

The best performance of the day, however, was that of M. F. Hallows, an Oxford Blue, who cut two seconds off the record, much to the surprise of everybody, as the 1,500 metres were considered too short for him.

H. L. Cole, of the University of Michigan, made a strong bid for victory in the fourth heat but was unable to keep up with E. V. Loney, of England, although the time was not particularly brilliant. Cole finished second.

It was the first time that the great majority of those in attendance had had an opportunity to view the stadium. Exclamations of surprise and admiration were to be heard on every hand. The giant amphitheatre, completed at a cost of \$300,000, has a seating capacity of 70,000. Besides the spacious field the great arena contains a 110-yard swimming tank and two one-third mile running tracks. Erected at regular intervals around the edge of the arena were Venetian masts and from these there fluttered the colors of all nations. The climax of the opening ceremonies

ZEPHELIN REMAINS UP FOURTEEN HOURS IN HIS AIRSHIP IN TRIALS IN GERMANY

Makes Claim That He Can Travel 1,000 Miles in 24 Hours.

Berlin, July 14.—Count Zepelin, whose feats with the airship are attracting world-wide attention, ascended from Friedrichshagen for a 24 hour test of his giant aircraft. Fifteen guests accompanied him. A crowd of 100,000 witnessed the ascent. At the last attempt Zepelin remained aloft 14 hours. He considers this the crucial test to prove he can travel a thousand miles in 24 hours.

TEACHERS' INSTITUTE

The county teachers' institute will be held at the court house the week beginning July 27. Prof. T. J. Coates, of Richmond, being the instructor in charge. Professor Coates has conducted a number of institutes in western Kentucky and is regarded as one of the leading educators of the state. The institute for colored teachers will be held the week beginning August 8 at the Lincoln school building, Professor Jackson, principal of the school, being the instructor.

W. F. NIEDRINGHAUS DYING.
Founder of St. Louis Tin Plate Industry at Death's Door.

St. Louis, Mo., July 14.—William F. Niedringhaus, founder of the tin plate industry here, ex-state Republican chairman T. K. Niedringhaus' father, is dying from a complication of diseases, aggravated by heat. He is 75 and not expected to live till morning.

FIRST WARD WILL BE ABANDONED BY IMMORAL HOUSES

Mayor Smith and Chief Collins "Order Down" Immoral of Resorts.

Must Move in Response to Complaints of Residents.

BOARD PUTS IT UP TO THEM

When the board of police and fire commissioners announced last night that it is up to Mayor James P. Smith and Chief Collins, as to whether or not the presence of hawdy houses is to be suffered in the First ward, no time was lost in carrying out the mayor's and the chief's already formed opinion.

Hawdy house keepers were "ordered down" today and they will be given ten days in which to remove from locations north of the railroad. They will also be notified that wherever they may go, whenever complaints are made against them, they must move. It is expected that a large number of the "white slaves" who receive practically no share in the profits of their own immorality, will present themselves at the city hall, asking for transportation out of town. They will be told to present themselves there tomorrow morning, and it is probable that the city authorities will consider it economy to aid them, as it certainly would be charity to the poor creatures, who are more sinned against than sinning.

In the Board.

Dr. Frank Boyd, the new member of the board, introduced the subject last night. He said complaints had come to him from the First ward that women were insulted on the streets by disorderly house habitues and the neighborhood was becoming unsafe. They told him that if they failed to secure relief from the city, they would take the law into their own hands. Everybody joined in the discussion and finally they said it was up to the mayor and the chief of police.

Mayor Smith said: "I have waited six months in the hope that this question would adjust itself. It has not. This is a hard subject to handle. Deliberate segregation of the houses would meet with the protest that we were recognizing it. To prosecute the women is difficult from the trouble of securing direct evidence against them; but whenever people complain against these places, I intend to drive them out. They may go somewhere else, and if there are complaints, out they must go. If they leave the city, as I hope they will, or get some place where no one complains, I am too busy to personally go out and hunt them up. I have given my word to those First ward people that I would drive their bad neighbors away and I shall do it."

Chief Collins said this morning that he would notify them, and if they did not obey his command voluntarily he would proceed in a way to force them to obey.

Domestic Business.
The resignation of Dick Brown as engineer at No. 1 fire station was accepted and Lee Story was elected to the vacancy. The action of Chief Wood in discharging Will Nelson was ratified and W. F. McCormick was elected to the vacancy.

Ernest Bell, street inspector, was given police powers, although Commissioners Ross and Clark made protests. It was pointed out by the mayor that the inspector could make arrests for violation of dropping waste material on the streets of the city.

It was ordered that all members of the police departments who are candidates for office be laid off duty until after the election.

The proposition of Miss Hallie Ross, Judge Cross' stenographer, to act as stenographer to Chief Collins and the police officials for \$10 a month, was referred to the finance committee.

Burk's Chapel Picnic.

A. M. E. Sunday school will hold its annual picnic outing Thursday, July 16. All Sunday school members are invited to go. The day will be spent in a beautiful grove 25 miles down the river. They will go on the Wabash. The boat will leave the wharf at 7:30 a. m. and 1 p. m.

Miss Morgan Sues Labor.

Berlin, July 14.—Miss Anne Morgan, daughter of J. Pierpont Morgan, who has been investigating German institutions for workingmen, visited today in company with representatives of the Berlin city council the municipal laborers' dwellings. Miss Morgan will remain in Berlin until next Wednesday.

POLICE!
New York, July 14.—George Hoffman, the dancer, started the city with a revivification of "Salome's Dancer," without shoes, stockings or fleshings. Her nude limbs showed through her transparent skirt. Strands of pearl beads composed her costume above the waist. It was the biggest theatrical sensation in years and the police threaten to stop the dance.

came when the two thousand and more athletes entered for the games paraded around the arena, receiving the cheers of tens of thousands of onlookers.

The games will continue until July 25th.

The scope of the program is enormous. Prizes, mostly gold, silver and bronze medals, are offered for the following events:

Athletics, archery, cycling, fencing—epee, sabre and foil—association football, rugby football, golf, gymnastics, hockey, lacrosse, lawn tennis (grass and covered courts), motor boats, polo, racquets, rowing, shooting—rifle, miniature rifle, revolver and pistol—clay bird shooting, skating, swimming, wrestling and yacht racing.

The team from the United States, comprising more than three-score of famous athletes, will undoubtedly capture its full share of honors. In the running events and in many of the field events the wearers of the Stars and Stripes are already prime favorites. And in the weight throwing events, with Martin Sheridan and Ralph Rose, the American team is conceded to be unbeatable.

The 25-mile Marathon race is, in fact, the most popular event of the entire Olympic program. It will start from the grounds of King Edward's palace at Windsor and end with a 660-yard final dash around the stadium track. The entry list numbers nearly 100.

LINER CUTS WHALE IN TWO.

Sea Monster Worsted in Disputing Progress of Steamer St. Louis.

New York, July 14.—Officers of the American line steamer St. Louis, in today, report running into a school of whales off Newfoundland banks at 6:30 last Thursday evening. According to the report, a big bull whale challenged the progress of the Yankee flyer, and was cut in twain by the vessel's prow. The shock of the collision was plainly felt aboard the ship.

HURT IN RUNAWAY

St. Johns, July 14.—(Special).—David Thompson, a prominent farmer of Florence Station, had three ribs broken in a runaway last night at 8 o'clock, while driving to his home from a neighbors. His young horse was frightened by a barking dog and overturned the buggy. Dr. R. D. Harper dressed his injuries and he is resting well today.

TULLY-FRANKS CASE

The charge against Wynn Tully for breach of the peace, growing out of the trouble at the race track July 4, was called in Magistrate Bleich's court and was set forward on account of Mr. Tully's attorney being absent from the city. The date for the trial will be arranged when the attorney returns.

SAN FRANCISCO BOODLERS PLOT ASSASSINATION

San Francisco, July 14.—The confession of John Claudenes reveals a plot of alleged "municipal grafters" to avoid punishment through hiring assassins to kill witnesses. Claudenes is accused of kidnapping the home of James Gallagher, the chief witness. He admitted the plot and said his brother, Peter Claudenes received \$1,000 to destroy Gallagher. Peter Claudenes has eluded the police.

CURE FOR SUMMER COMPLAINT

At no time of the year are the bowels put to a severer test than during the hot weather. Thousands become afflicted with "summer complaint," or running of the bowels. The cause very often lies in the drinking of impure water, the eating of unripe fruit or tainted food.

USE DR. CALDWELL'S SYRUP PEPSIN

But whatever the cause it is useless to try to cure the trouble with an astringent remedy, an opiate, or salts and such things. The bowels need not only a thorough cleaning out, but the stomach needs strengthening and toning, so that they may have a new start. All this is best obtained by the use of Dr. Caldwell's Syrup Pepsin, which is a great stomach, liver and bowel cleanser. It will quickly stop the unnatural passages, which are so weakening and give rise to vertigo. Thousands of families are using it steadily and thereby avoid all digestive troubles summer and winter. Buy a 50 cent or \$1.00 bottle today of your druggist and you will be surprised at the quick and lasting effects. You will find it a mild, gentle laxative, agreeable to young and old, and absolutely guaranteed to do as we claim. You will also find it a money saver, for it will enable you to cure yourself at home. IMPORTANT DECISION

A. M. LAEVISON & CO.'S BEVERAGES DECIDED NON-INTOXICATING.

Thos. Cole was tried before police court Judge Cross, charged with selling liquor without a license, and as it developed he sold A. M. Leavison & Co., Cremo Temperance, Dr. Flax and other non-intoxicating beverages, and as the evidence showed that these drinks were non-intoxicating, the jury on instructions of Judge Cross dismissed the case, which clearly proved that these beverages were non-intoxicating, and the claims of A. M. Leavison & Co. were sustained, and this decision is of much importance to A. M. Leavison & Co., and their numerous customers throughout this vicinity who are handling these beverages.

An Angler's Elysium.

According to advertisements all summer resorts are alike. They are the best ever—but if fishing is better anywhere else than it is in "Georgian Bay" we do not know where it is. There is a greater variety of fish in this water than anywhere else, and they are always hungry. The only place you can afford to fish is where the fish are numerous, big and delicious in flavor, and that place is Georgian Bay—so the fishermen say. Suppose you send for booklet, issued by Grand Trunk Railway System free, telling about the home of the bass, pickerel, pike and the noble trout family. Address G. W. Vaux, 417 Merchants Loan and Trust Building, Chicago, Ill.

SUMMONS

SERVED ON DEFENDANTS IN MARSHALL COUNTY.

All but Three of the 71 Are Found By Deputy Marshal Neel—Thyrs Missing.

All but three of the 71 defendants to the suits of \$75,000 damages filed against citizens of Marshall and Lyon counties by the victims of night rider bands at Birmingham have been served with summons by Deputy Marshal Elwood Neel. Koenie Bloodworth, of Lyon, and Louis Chaudet and Chaudet Locker, of Marshall county, were the three not found. They are indicted in the Marshall county circuit court and are under bond. Marshal Neel served the summons on Dr. E. Champion in the Edenville penitentiary.

Thirty Thousand in Italy Join in Appeal to Providence.

Bari, Italy, July 1.—The long drought, with intense heat, reaching at times 90 or more in the shade, is causing disastrous effects throughout the Apulia region. In the hope of receiving rain through divine intervention, it was decided to carry in procession through the town the central image representing Calvary. Thirty thousand of the faithful participated in the ceremonies, which were attended by dramatic scenes of fanaticism, but the rain did not come.

JUDGE SPRINGER FOR CHAUTAUQUA

Famous Illinois Jurist Will Appear on Program.

De Armond Concert Company Headliner for Entertainment at Night.

SOMETHING OF THE ARTISTS.

Friday of this week marks the opening of the third annual assembly of the Paducah Chautauqua association and the program arranged for this day is worthy of the occasion. The association is to be congratulated upon securing the services of Judge Lawrence B. Springer and the De Armond Concert company for this date, and their appearance here is noteworthy.

Judge Springer, who is the presiding judge of the Illinois state court of claims and who was the Democratic nominee for governor in 1904, is prominent not only in state affairs but in national affairs and is an orator of rare ability. At the age of 24 he was elected to the 37th general assembly of Illinois and has been prominent politically since that time, serving eight years in the Illinois legislature, two years as permanent chairman of the Democratic state convention in 1904. In 1905 he was appointed presiding judge by Governor Deneen, his political opponent in the campaign of 1904. Judge Springer is eloquent and convincing, as an orator he is the peer of Bryan, Jones or LaFollette and his lecture on "The Spirit of the Pioneer" is a speech of true eloquence, overflowing with good common sense, clothed in matchless words and delivered in such a manner as to stamp every thought indelibly upon the mind.

The De Armond Concert company has been before the public for six years, delighting their audiences and scoring splendid successes. The company is composed of four well known southern musicians, Tracy Holbrook, violinist; Elma Winton Greitz, soprano; Robert De Armond, basso, and Ora Averitt, De Armond, cellist. Miss Greitz has a beautiful soprano voice of wide range and pure coloring and her interpretation is both correct and delightful. Mrs. De Armond is a cellist of rare ability, who plays with intense feeling. Mr. Holbrook's playing is marked with technique and expression, while Mr. De Armond's work covers both the classic and the popular, including an interpretation of the "ante-bellum" darkey in some unwritten songs and a few stories.

The lecture of Judge Springer will be given at 7 o'clock Friday afternoon while the De Armond Concert company will furnish the entertainment for the evening. It is anticipated a large and enthusiastic audience will greet both attractions.

DIFFERENT NOW.

Athlete Finds Better Training Food. It was formerly the belief that to become strong, athletes must eat plenty of meat.

This is all out of date now, and many trainers feed athletes on the well-known food, Grape-Nuts, made of wheat and barley, and cut the meat down to a small portion, once a day. "Three years ago," writes a Michigan man, "having become interested in athletics, I found I would have to stop eating pastry and some other kinds of food.

"I got some Grape-Nuts and was soon eating the food at every meal, for I found that when I went on the track, I felt more lively and active. "Later, I began also to drink Postum in place of coffee and the way I gained muscle and strength on this diet was certainly great. On the day of a field meet in June I weighed 124 lbs. On the opening of the football season in Sept., I weighed 140. I attributed my fine condition and good work to the discontinuation of improper food and coffee, and the using of Grape-Nuts and Postum, my principal diet during training season being Grape-Nuts.

"Before I used Grape-Nuts I never felt right in the morning—always kind of 'out of sorts' with my stomach. But when I rise I feel good, and after a breakfast largely of Grape-Nuts with cream, and a cup of Postum, I feel like a new man." "There's a reason."

AN INEXPENSIVE OUTING

One of the most attractive features of the Paducah Chautauqua, July 17 to 26 is the ten days outing in Wallace Park Tent City. Cool and comfortable tents will be erected on the Chautauqua grounds and will rent as follows:

Wall Tents 9'x12	\$3.00
Wall Tents 12'x14	\$4.00
Compartment Tents 14'x16	\$5.00
Compartment Tents 14'x20	\$6.00
Compartment Tents 16'x20	\$8.00

It is not necessary to sleep in the tents at night to get good use of them. Fit them up and provide a comfortable place for your family to spend the day and evening. Tents must be engaged before the opening of the Chautauqua and may be had upon application to W. P. Hummel, treasurer.

ANNOUNCEMENT.

County Court Clerk.
The Sun is authorized to announce
Hiram Smedley a candidate for re-
election to the office of Clerk of the
McCracken County Court subject to
the action of the Democratic party.

Daily Thought.

"Happiness is a means rather than
an end. It creates energy, promotes
growth and nutrition and prolongs
life."

That New York married man, whose
beautiful stenographer was killed
Sunday night by the overturning of
his auto, is a sad sight.

That's a base argument against re-
form, that you will have to do it all
over again some time. The same argu-
ment can be presented against
sweeping a house.

The postoffice department clerk,
who refused to contest her millionaire
father's will because she hated notori-
ety, got the notoriety, if that is what
she was after.

Peary had better bring the pole
back with him this time; or Roosevelt
probably will go up and get it when
he completes his African trip.

William Jennings Bryan has offered
half the executive mansion to Mr.
Kern, in case they are elected; but,
of course, Mr. Kern will understand that
proposition is subject to Mrs. Bryan's
veto.

"Encouraged by the result of the
suits against the Hollowells in the
federal court, negroes and others who
were driven out of the state by night
riders, are filing suits against their
tormentors in large sums. It is rather
a serious business to run up against
the federal court," says an exchange.
It is quite a serious thing to run
up against the state court in this cir-
cuit.

"BACK TO THE FARM."
In connection with a picture of the
rude frontier cabin in which J. Ster-
ling Morton and his wife commenced
their life struggle, Collier's Weekly
produces an editorial, which is so true
and simple that we quote it in full:
"The above picture is of the house
that J. Sterling Morton built with his
own hands when he began life on a
Nebraska homestead. He was a col-
lege graduate and the son and grand-
son of men with intellectual occupa-
tions. The young wife who did the
cooking in this house had a similar
cultivation and ancestry. In his
home Morton had the career which
ended in a cabinet office, and raised a
son who was also a cabinet member.
What young couple is so poor today
that such a home is beyond them?
granted the willingness to work with
their hands, and granted that educa-
tion and city life have not made them
effeminate? Granted the same endow-
ment of character and mind, a
career of equal dignity and fulfillment
is as possible today. Much so-called
social reform is governed by a spirit
which puts the mark of intolerable
barriers upon those conditions which

call out initiative and hard work. As
we hinted the other day, most of the
city dwellers, whom the reformers
seek to mark as objects of pity and
governmental solicitude, could enter
many of their own ill by a thirty-
mile walk into the country. A whole-
some exodus of the kind would do
much to restore the economic balance,
solve the question of the unemployed,
and mend most of the troubles about
which Socialists and philanthropists
lie awake. It would insure genera-
tions of clean bodies and sound minds,
just as surely as keeping them in the
city, coddling them there, and putting
premiums on the absence rather than
the presence of initiative and self-re-
liance, will breed a poor race. Says
Debs, the Socialist candidate for presi-
dent: 'Had Lincoln been born in a
sweatshop, he would never have been
heard of.' Had Lincoln's ancestors,
or Lincoln himself, been of the lax
fiber which sticks to the sweatshop
because of the light, the crowds, and
the steam-heat, probably they never
would have been heard of. But they
had the self-reliance and self-suffi-
ciency which makes the more solitary
life of the farm endurable. Any
sweatshop worker can give his chil-
dren much more than Lincoln's start
by a two days' walk in the country
and a self-abnegation sufficient to deny
himself Coney Island and the corner
saloon."

The foregoing is in timely connec-
tion with the "Back to the Farm"
movement, in New England. 'tis said,
farms are abandoned and standing
idle. In New York farmers, unable
to get help, are selling out
on the best terms they can and leav-
ing. The middle west, Ohio, Indiana
and Illinois, are fast becoming states
with large cities and tenant farmers.
The west is crying for harvest hands,
and the increasing population is forc-
ing the price of beef and food stuffs
to an alarming figure.

In the great cities, while this con-
dition existed in the country, work-
men were idle and suffering. The
laborer in the city lives in crowded,
unhealthy tenements, where he can
enjoy none of the advantages of a
city, and can only be continually ir-
ritated by the sight of blessings en-
joyed by others, but denied to him. In
the country he could live in a good home,
with plenty of room for the children,
plenty of the most wholesome food
and water, and no one to flaunt
greater prosperity in his face.

Moreover, as Americans learn how
to farm, these abandoned homesteads
will be valuable. Men now own more
land than they can properly care for.
Instead of seeing how many acres
they can till, men will see how much
they can produce on one acre. Theo
farming in the vicinity of great cities
will become profitable.

The removal of tenement dwellers
from the cities to the country, will
be a patriotic work. It will lessen
the suffering, and increase the pro-
duction besides improving the
breed of men. Some of these city
dwellers do not know what the coun-
try is like. There is a work here of
national scope and significance for
someone that knows how. Eventually
the problem will solve itself, as usual
leaving in the wake of its slow pro-
gress thousands of corpses and broken
lives. The modern method should be
to stimulate the movement.

SLIGHTLY HUMOROUS.

"What is the name of your new
novel?"
"The Dungeon." Good, gloomy
title, eh?"
"Yes. That name alone ought to
get the book among the six best cel-
lars."—Kansas City Journal.

Arranging for the Defense.
The ethics of the difference be-
tween the professional opinion of a
paid advocate and the honest con-
viction of a learned man were set
forth by a well-known English bar-
rister who died recently. It was a
case of murder, and the client and
counsel were closeted together.
"Smith," said the barrister, "of
course I know you didn't murder the
man, but, as a matter of fact, did
you do it with the butt end of a re-
volver or with a stick?" "Sir," said
Smith, "I wear I am innocent." "I
know that perfectly well, but you
must tell me. For if you did it with
a revolver, I shall say to the prosecu-
tion, 'produce the stick!' and if you
did it with a stick, I shall say, 'pro-
duce the revolver!'" The client
paused and scratched his head medi-
tatively. "It was 'the butt end of
a revolver,' sir." "That's right!"
said the counsel; "I think I can get
you off now."—The Argonaut.

THE VANISHING FLEETS

CHAPTER XX.

What Told the Emperor.
Like a lonely rock that has with-
stood the fury of a storm and the bat-
tling of the seas to emerge again
into sunlight, the president felt his
hour of justification approaching. His
hour of triumph was at hand, and his
prayers were being answered; but the
task was not yet done.

The unqualified victory over the
Japanese fleet made the outcome of
the war a certainty; hence it was with
patience that the administration
waited for the next move in the far
east, which must of necessity come
from China. There was no doubt that she
would assist her ally. At first this
seemed an imminent action; but sev-
eral days passed bringing through the
secret service no news save that her
fleet, huge and well manned, was
making preparations to sail. The
president, knowing that for the accom-
plishment of his purpose oriental
power must be broken, indulged in the
fervent hope that the attack might
come soon.

There was less trouble internally,
as the people were beginning to have
faith in the administration, though
they were speculating as to what
course of procedure was being fol-
lowed. It was while affairs were in
this condition that the sailing of the
British fleet was duly announced
through secret channels of informa-
tion. The coterie saw before it the
necessity of either abandoning the
hope of teaching China a drastic lesson
and announcing its secret to the world
or meeting the British squadrons and
holding them hostage in the interest
of peace. They chose the latter alter-
native, and thereby was caused the
strangest chapter in the history of war.

Like that other silly outward to the
western seas, this one was timely. It
was made when the British fleet might
be met beyond the reach of wireless
telegraph communication, and the per-
formance from the key was also under
cover of darkness. Again there was a
resemblance to the Japanese affair.
In that the appearance of the radio-
plane created surprise and consterna-
tion on the warships. Here, however,
the similarity ended. The Anglo-
Saxon mind knows no such thing as
surrender when once it is stirred to
the depths of its stubbornness. It can
read only two answers to the riddle
of conflict—victory or death—as has
been attested by many a hard-fought
battle on land and sea.

The armada of Great Britain had
sailed with apprehensions, being full
conscious that it was invading a terri-
tory of mystery and danger, and the
vigilance of its watch, therefore, was
never relaxed. The consternation
caused by the first sight of the aerial
fleet was immediately followed by a
hurried clearing of the decks for ac-
tion, although defeat in a battle
against such overpowering odds was a
foregone conclusion. No gun was
fired, however, and all stood expect-
antly awaiting a declaration of intent
from the monsters of the air which
had come upon them in the full glare
of the afternoon sun.

With slow and stately majesty the
radioplanes approached, each flying
the flag of the United States and be-
neath it the emblem of truth. The
broadmound, answering sluggishly
to the swell and hurling great cascades
of water from its base, was in the
heart of the formation, and in its pon-
derous might seemed fearless of any-
thing afloat. Toward it the foremost
radioplane directed its course, drop-
ping steadily down until full abreast
and on a level with the great fighting
tops, while the officers of the battle-
ship watched with amazement its
splendid control. Not till then was
there a visible display of life aboard
it. A port opened and into the black-
ness of its frame Bevis emerged,
while directly behind him stood the
scientist, who had recovered, and was
to witness the first full demonstration
of the power he had evolved. On the
bridge of the battle ship the British
admiral stood, surrounded by staff of-
ficers.

"Good afternoon, admiral," the
American hailed. "Glad to see you.
How do you like the looks of us?"

Across Fields' face flitted a half
smile. "We are very well indeed. Ad-
miral Bevis; but can't say we are
particularly glad to see you, or sure
that we like you until we know more.
Clever invention that. Must have
been conceived by an Englishman."

Behind the United States officer a
withered little figure became im-
bued with a sudden frenzy of passion
that threatened to interject an un-
pleasant remark; but Bevis checked
him with a laugh and grew serious
again.
"Admiral," he said, "my country
isn't at war with yours. You under-
stand that?"
Fields looked relieved, and lost
somewhat of his air of set defiance.
At the head of his men he crossed to
the end of the bridge where he might
be nearer the one addressing him. The
nervous strain of the situation was be-
ing rapidly diminished. "Frankly, I'm
glad to be reassured," he replied.

"There are a lot of things we'd rather
know."
"And which I shall be glad to ex-
plain if you and a dozen of your im-
mediate subordinates will come aboard
as my guests."

The invitation was immediately ac-
cepted; but it was a trying interview
for the Britons. The machine on
which they were received was the
Roberts, which was the latest pro-
duction of the plant on the key. It
was larger than its predecessors, and
had been made the most pretentious.
It was elegantly appointed. Amid-
ships it contained a drawing room on
which the most careful workmanship
had been lavished. The guests gath-
ered round a huge mahogany table,
whose polished top reflected the light
from the colored ports of the dome,
and were served with refreshments be-
fore Bevis resorted to the object of
his visit. He drew from his pocket
an official packet and laid it open be-
fore him.

"Gentlemen," he began, "of course
you are interested in all that you have
seen, and in the attitude of the United
States. What I shall read to you are
my orders. I have come out here to
meet you for the purpose, first of all,
that you may hear them."

The Roberts had ascended to an al-
titude above the others of the Ameri-
can fleet, and was resting in mid air.
It was very still, the light hum of a
small dynamo from behind the parti-
tions being the only disturber of sil-
ence. He opened the document and
read:

"You are instructed to intercept the
British fleet and assure its officers of
the good will of the United States to-
ward his majesty, King Edward VII.,
and all his subjects. You are to ex-
plain to them that the United States is
compelled, in pursuance of its adopted
policy formulated at the commence-
ment of the war with Japan, to main-
tain the secret of its power until such
time as it is deemed expedient to an-
nounce it to the world. You will then
endeavor to induce the British fleet
to surrender itself into your hands as
guests of this country, assuring those
in command that all damages ac-
cruing will be repaired by the United
States. You are to use all due caution
to avoid injury to life, property, or
pride, and to transport the entire fleet
to the waters of Chesapeake bay, after
which for a brief period the officers
and men of Great Britain will be en-
tertained by the United States."

2-MINUTE SKETCHES

Ralph Waldo Emerson.

By ROBERTUS LOVE.

EMERSON was pure intellect.
Though he lived in America
during the nineteenth century
for nearly eighty years, he was
not materially influenced by the sur-
roundings and the events of his time
and country. He dwelt in his own
world of mental contemplation. From
the time during his long life he
to the world the fruits of those
speculations in lectures, essays and
talks. But so far as externals go any
of his essays or poems might have
been written in any other age or in
any other country. He was not mat-
terially American; he was universal.

Perhaps no writer ever lived the
sum of whose literary work is as de-
void of vulgarity. All of the Em-
ersonian output is simply thought re-
fined to the uttermost. There is no
humor save in the way of sarcasm,
and the sarcasm is lofty and benevo-
lent.

Emerson was a supreme idealist. He
never climbed toward ideals nor, ex-
posed in the dark after ideals, for he was
the exponent of ideas already attain-
ed. The great commercial world rag-
ged around him, but he held aloof, con-
tent to live simply and frugally, rich
to his own wisdom.

The great lesson of Emerson's life
and teachings lies in his conception of
the inherent nobility of the human
soul. He repudiated utterly and with
calm scorn the age worn conception of
man as a sinful and filthy maggot
crawling about the earth asking alms
of a superior divinity. The godliness
residing in humanity, the inherent pos-
sibilities of the soul of man from low-
er to higher, the divine dignity of life
upon earth—these things Emerson be-
lieved and felt and taught for more
than fifty years.

Miss Ethel to Make Debut.
Washington, July 14.—Miss Ethel
Hoover, who is now at Oyster Bay
with her parents, will celebrate her
19th birthday next month by a small
house party of girl friends.

The president and Mrs. Roosevelt
have decided to present her to society
at an unusually youthful age for a
debutante. In order that she may be
a white house bud, it is expected she
will make her bow to society at a ball
in the east room, like her elder sister,
Mrs. Longworth, who was also pre-
sented at an early age.

HANDLE CROWDS

PLANS BEING MADE BY ILLINOIS
CENTRAL FOR AUG. 8.

Crowds of Colored Excursionists Will
Be Unloaded at Eleventh and
Broadway.

Extensive arrangements are being
made by local officials of the Illinois
Central railroad to handle the throngs
of colored excursionists that will come
to the city August 8. Every avail-
able passenger coach will be brought
into service. The crowds will be lo-
aded and unloaded at Eleventh street
and Broadway, and the cars "stuffed"
on the tracks of the north yards dur-
ing the day. The road has been suc-
cessful in handling the crowds that
came to Paducah on this occasion dur-
ing previous years and the same good
success is anticipated this year.

ON PLAIN BUSINESS BASIS.

Seeking For Best Bargain In Select-
ing a Wife.

Pitts is a sharp fellow, a man of
business tact, says the Philadelphia
Inquirer; and when Pitts goes into
a shop he always gets the lowest cash
price, and says:

"Well, I'll look about, and if I
don't find anything that suits me bet-
ter, I'll call and take this."

Pitts, like all sharp men, is par-
tial to women, and young ones in
particular. Now, quite lately, Pitts
said to himself:

"I'm getting rather alone in years
and think I'll get married."

His business qualities would not
let him wait, so off he travels, and
calls on a lady friend, opening the
conversation, remarking that he
would like to know what she thought
about his getting married.

"Oh, Mr. Pitts, that is an affair in
which I am not so very greatly inter-
ested, and I prefer to leave it with
yourself."

"But," says Pitts, "you are inter-
ested, and, my dear girl, will you
marry me?"

The young lady blushed very red,
hesitated, and, finally, as Pitts was
very well-to-do in the world, and
morally, financially, and politically
of good standing in society, she ac-
cepted him. Whereupon the matter-of-
fact Pitts said:

"Well, well, I'll look about, and
if I don't find anybody that suits me
better than you, I'll come back."

The new Mary Michael was launch-
ed Saturday in the Tennessee river at
Langstaff & Orm's. She is just a little
smaller in dimensions than the old
boat Mary Michael, but will be much
faster and more powerful. Most of
the machinery of the old boat will be
put on the new one. The new boat
when completed will be one of the
best towboats that strike the Paducah
barber.

THE STATE UNIVERSITY

Lexington, Ky.

The State University, Lexington, Kentucky, offers the follow-
ing courses, namely, Agricultural Engineering, Civil
Engineering, Electrical Engineering, Mining Engineering, Classi-
cal and seven Scientific courses each of which extends over four
years and leads to a Bachelor's degree; also a Department of
Law and a Department of Education, which last has been estab-
lished instead of the Normal School. Persons who enter this de-
partment prepare for advanced work in pedagogy and are granted
a Bachelor's degree in this subject when completed. The Academy
for preparatory instruction is retained.

County appointees receive free tuition, privilege of residence
in the dormitories, fuel and light, traveling expenses, if they re-
main ten consecutive months, or one collegiate year.

The laboratories and museum are large, well equipped, compre-
hensive and modern. Military Science is fully provided for, as
required by Congress.

The graduates in the several courses of study readily find em-
ployment with liberal remuneration. The total number of mat-
riculates for last year was 1078. Each department has a spe-
cialist at its head, with the necessary number of assistants.

Young women find an excellent home, with board and lodging,
in Patterson Hall, which is well equipped with all the modern
conveniences, bathroom, hall for physical culture, at \$3.00 per
week. All courses of study in the University are open to women
on identical conditions with those applying to males.

The completion of the Agricultural, Mining Engineering, Lab-
oratory and Education buildings afford ample and commodious
quarters for these departments, which are rapidly increasing in the
number of matriculates.

For catalogues, methods of obtaining appointments, informa-
tion regarding courses of study and terms of admission apply to

Genuine Bristle Brushes

For many years the genuine bristle brush made in Japan has been recognized as the best. They are made with a care which would only be possible in the Orient. In this day of rush and hurry. We have the most complete line of bristle brushes in the city—tooth brushes, hair brushes, nail brushes and brushes for all the other manifold uses which they have in the modern toilet—and they are reasonably priced, too. We invite you to come and see them.

SERGEANT BLAKE

GOES TO ST. LOUIS TO BE PHOTOGRAPHED.

Recruits Received Here By Captain Reed—New Officer Coming to Paducah.

Sergeant C. A. Blake, of the local recruiting office, will leave tomorrow morning for Jefferson Barracks, St. Louis, to have his photograph taken and thumb marks registered, in accordance with a recent order of the war department. Corporal Anthony Petoskey, of the Cairo office, will receive Sergeant Blake here and have charge of the office in his absence. It is not known how long Sergeant Blake will be required to stay in St. Louis, as the number of men there on similar missions will regulate his visit.

Captain W. L. Reed came to Paducah from Cairo this morning and accepted two men enlisted by Sergeant Blake. Edwin Shadowen, of 601 Guilford avenue, and Lon Stubbs, of Berry Ferry, enlisted in the cavalry and will go to Jefferson Barracks with Sergeant Blake tomorrow. Captain Reed enlisted four men at Cairo. That a man's reputation is enhanced by having served in the army is shown in a communication Sergeant Blake has from Milwaukee where the manager of the street railway there has announced that any man with an honorable discharge from the army has sufficient recommendation to get a position at any time with his company. In other cities ex-soldiers stand a good chance to get speedy employment from having served in the army, and little trouble from them is reported by employers.

BOHE STUNS PRISON WARDEN.
Mysterious Explosion in Leavenworth Hurts R. W. McClaughry.

Leavenworth, Kas., July 14.—An apparent attempt to assassinate Warden R. W. McClaughry, of the federal prison, by means of a bomb, which was exploded near the wagon, while he was driving through the streets of Leavenworth, has mystified the local police.

Warden McClaughry and his son, Will, head of the United States bureau of identification, were driving west on Cherokee street, Saturday, when a terrific explosion took place opposite the right front wheel of their wagon. The warden, his son and the driver, were stunned by the explosion, which was heard all over the business section of town.

A prisoner, who was driving a prison wagon in the rear of the warden's vehicle, said he saw the missile which caused the explosion, thrown from a second-story window.

EX-ALDERMAN IS FOUND DEAD.
Suicide Leaves Note Denouncing His "Any Times Murderers."

St. Louis, July 14.—The body of John F. Waters, thirty hours after death, was found in a squalid room at 615 North Eighth street this morning. He had been twice a member of the St. Louis city council. Near his body were morphine tablets, a bottle of whiskey and a farewell note saying he was homeless, had but one friend, his foster daughter, Mrs. Richard Custello, wealthy, of 6210 Maple avenue, whom he adopted when she was 6 months old. The note closed by denouncing a man driving him to suicide by stories derogatory to his character, and saying that the dying wish of the suicide, who "is only an old man in the way," is that his many-times murderer and thief will be brought to justice. Waters, after being police turnkey here, was last employed as bookkeeper at Cairo, Ill.

PREHISTORIC IDOL

Discovered by Cincinnati Explorers in a Cave on Kentucky River.

Frankfort, Ky., July 14.—While exploring Boone's Cave, in the cliffs of the Kentucky river, above High bridge, a party of Cincinnati traveling men discovered the image of a mastodon carved in a mass of solid rock, which was the idol of the cave-dwellers of prehistoric ages. They also discovered and are carrying home with them petrified bones of human beings or animals that inhabited the cave thousands of years ago, and these will be turned over to the museums when they reach Cincinnati.

When they call the Chamber of Needles was also entered; hanging from the roof and alons are thousands of sharp-pointed stones from one to three feet in length, and the largest not more than an inch in diameter.

They also discovered a river in the cave flowing through the ledges of rock as crooked as a serpent and not more than three or four feet in width. The bottom of the river was not found.

The members of the party were J. C. Smith, L. Striker, C. C. Forrester, George Swain, Rich Klotzbach and O. B. Wheeler, who made the trip from Dayton to the cave in the gasoline launch "Itsky," which is owned by Captain Smith.

AMERICA IS THE "BENJAMIN"
Rome, July 14.—The pope received in private audience the students of the American college, headed by the rector, Mgr. Kennedy, for the presentation of their felicitations on the occasion of the papal jubilee.

Mgr. Kennedy delivered an address and the pope in reply thanked him cordially, saying: "America is young, but the father always loves more the youngest child. In every family there is a Benjamin; America is the Benjamin."

The pope imparted his benediction to American Catholics and to the institution represented by Mgr. Kennedy.

Mgr. Kennedy presented an offering of \$1,000 from the students and also a painting of the pope by A. Muller Ury, of New York.

S.S.S. THE CURE FOR SCROFULA

Swollen glands about the neck, weak eyes, pale, waxy complexion, running sores and ulcers, skin diseases, and general poor health, are the usual ways in which Scrofula is manifested. The disease being deeply entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, and the scrofulous and tubercular matter so thoroughly destroys the healthful properties of the blood that Scrofula sometimes terminates in consumption, an incurable disease. The entire circulation being contaminated, the only way to cure the trouble is to thoroughly purify the blood and restore the circulation to a strong, healthy state. S. S. S. is the very best treatment for Scrofula; it renovates the entire blood supply and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes right down to the very bottom of the trouble and removes the cause, but it supplies the weak, diseased blood with the healthful properties it is in need of, and in this way builds up weak, frail, scrofulous persons and makes them strong and healthy. S. S. S. is a gentle, safe, vegetable preparation and is suited for persons of any age. Book on the blood containing information about Scrofula and any medical advice free.

MRS. SHYROCK

DIES IN CHICAGO AND IS BURIED AT LOUISVILLE.

Daughter of Henry Enders and Sister of Mrs. David Sanders—Many Friends Here.

Mrs. George S. Shyrock, formerly a well known lady of Paducah, died in Chicago last week and the body was buried in Cave Hill cemetery at Louisville. Mrs. David Sanders, a sister of Mrs. Shyrock, was notified at Clinton, Ill., where she was visiting her daughter, Mrs. Louis Hassman, and attended the funeral and burial at Louisville.

Mrs. Shyrock was a daughter of Mr. Henry Enders, a pioneer resident of Paducah, and the greater portion of her life was spent in this city. She was married here, several years ago to George S. Shyrock, who died in Louisville. One daughter, Miss George Shyrock, survives. Mrs. Shyrock leaves one brother, Mr. William Enders, of St. Louis, besides her sister, Mrs. Sanders, of Paducah. During her residence in Paducah before her marriage, Mrs. Shyrock was a society favorite. She frequently visited here since her marriage and had many friends in the city.

CITY ORDINANCE

AN ORDINANCE PROVIDING FOR THE CONSTRUCTION OF SIDEWALKS. TOGETHER WITH CURB AND GUTTER, ON BOTH SIDES OF BROADWAY, FROM A POINT WHERE SAME INTERSECTS THE EAST CURB LINE OF FIRST STREET TO A POINT WHERE SAME INTERSECTS THE WEST CURB LINE OF WATER STREET, ABOUT SEVENTY-TWO FEET BELOW THE EAST PROPERTY LINE OF BROADWAY; AND FOR THE CONSTRUCTION OF SIDEWALKS, TOGETHER WITH CURBING, FROM THE SOUTH PROPERTY LINE OF BROADWAY, WAY ON THE WEST SIDE OF WATER STREET, TO A POINT WHERE SAME INTERSECTS THE NORTH CURB LINE OF KENTUCKY AVENUE; AND FOR THE CONSTRUCTION OF SIDEWALKS, TOGETHER WITH CURB AND GUTTER, ON THE NORTH SIDE OF KENTUCKY AVENUE, FROM A POINT WHERE SAME INTERSECTS THE WEST PROPERTY LINE OF WATER STREET TO A POINT WHERE SAME INTERSECTS THE EAST CURB LINE OF FIRST STREET, IN THE CITY OF PADUCAH, KENTUCKY.

BE IT ORDAINED BY THE GENERAL COUNCIL OF THE CITY OF PADUCAH, KENTUCKY:

Sec. 1. That the sidewalks, together with the curbs and gutters, on both sides of Broadway, from the east curb line of First street to the west curb line of Water street, about seventy-two (72) feet below the east property line of Broadway; and the sidewalks, together with curbing, on the west side of Water street, from the south property line of Broadway to the north curb line of Kentucky avenue; and the sidewalks, together with curb and gutter, on the north side of Kentucky avenue, from a point where same intersects the west property line of Water street to a point where same intersects the east curb line of First street, in the City of Paducah, Kentucky,—be, and the same is hereby ordered to be originally constructed of the materials hereinafter set out; all of the sidewalks hereinafter mentioned, together with the gutters where provided for, shall be constructed of granite material, and all curbing provided for herein to be constructed, shall be of granite curbing material, suitable in all respects for such construction; all to be done in strict accordance with the plans, grades, specifications, widths and profiles of the City Engineer, made and provided by him for such purpose, all of which are adopted as a part of this ordinance as fully as if embraced herein or attached hereto, and made a part hereof, and marked "A" for more specific identification.

Sec. 2. That said work shall be constructed under the direction of the Board of Public Works and the supervision of the City Engineer, and shall be commenced at a time designated by contract for the performance of said work, and completed on or before six (6) months after the passage, approval and publication.

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that LYDIA E. PINKHAM'S VEGETABLE COMPOUND comes as a boon and a blessing, as it did to Mrs. F. Ellsworth, of Mayville, N. Y., and to Mrs. W. P. Boyd, of Beaver Falls, Pa., who say:

"I was not able to do my own work, owing to the female trouble from which I suffered. Lydia E. Pinkham's Vegetable Compound helped me wonderfully, and I am so well that I can do as big a day's work as I ever did. I wish every sick woman would try it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that tearing-down feeling, faintness, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

tion of this ordinance.

Sec. 3. That cost of such construction of said sidewalks, curbs and gutters, shall be paid for wholly by the property owners abutting on fronting thereon, to be apportioned to and assessed against the property and property owners abutting thereon, according to the number of front feet abutting thereon, except, the City of Paducah shall pay the entire cost of all intersections of streets and public alleys, if any such there be.

Sec. 4. The contractor awarded the contract for the work hereby provided for, shall be paid only upon estimates furnished by the City Engineer, and approved by the Board of Public Works, in accordance with the terms of the contract made by the contractor awarded said contract, and the City of Paducah, for said work, and in no other way. The sidewalks herein provided for shall be twelve (12) feet wide.

Sec. 5. This ordinance shall take effect from and after its passage, approval and publication.

Approved July 13, 1908.

H. R. LINDSEY,

President Board of Councilmen.

STRANGE FIRE

DAMAGES TWO DWELLINGS AT TWELFTH AND BROADWAY.

No One Knows How Residence of Mrs. E. H. Kelley Caught on Fire.

Fire of mysterious origin almost consumed two vacant residences owned by Mrs. E. H. Kelley, Twelfth street and Broadway, at 12.15 o'clock last night. The house of W. H. Stewart was also badly charred and household goods damaged by being hurriedly carried out of the building. The fire was first discovered in the roof of house No. 1253, by Harry Maynard, who lives with Mrs. Kelley at 1246 Broadway. He called to Patrolman Whittenmore, who was passing, and an alarm was turned in, being answered by the hose companies from Nos. 1, 3 and 4 fire station, and No. 4 truck company.

The fire which also spread to the roof of the house, at 1250 Broadway, was put out in short order by the firemen. The damage is estimated at about \$750. Mrs. Kelley is out of the city and it is not known how much insurance was carried on the houses, but is believed the losses are fully covered.

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untamed Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other ailments, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

To aid in healing old sores, or ulcers, apply Dr. Pierce's "All-Healing Salve" to the sores, and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when the blood is made pure.

"Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar ailments, weakness and distressing irregularities, in Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus

being affected by the weather. Sixty-eight hogheads were sold by the "Pioneers' Protective Association," through its salesman, S. G. Hucker. The prices ranged from \$7 to \$10 for hogs and from \$11 to \$13 for leaf. There were 165 hogheads received. The association this year has received 5,449 hogheads and has sold 2,449.

John D. Seales, auditor of the organization, has issued the following report of sales made this season in the "black patch" by the Pantora-Clarksville, 5,885 hogheads; Springfield, 6,471; Guthrie, 2,587; Russellville, 698; Hopkinsville, 2,563; Cadiz, 376; Princeton, 530; Paducah, 3,446; Mayfield, 1,073; Murray,

1,691. The growing crop is doing well, rather better than had been expected, and there will likely be about 75 per cent of a crop. The Equity warehouse made no detailed report of its sales for the week, but it was stated that the prices were fully up to the schedule.

ANDY BANNISTER DIES OF WOUNDS

Aged Victim of Shooting at Backsburg Succumbs.

Walter W. Meadows Leaves Home, Taking His Eldest Son With Him to Parts Unknown.

FIRE DESTROYS LOWES MILL

Mayfield, Ky., July 14.—Andy Bannister, 70 years old, died at his home near Backsburg as the result of four shots inflicted by Wayne Lawrence at a revival being conducted under a brush arbor near Backsburg.

Last Wednesday night Bannister and his daughter, Mrs. Sarah Felt, attended the meeting. Wayne Lawrence, a widower, aged 35, also attended. He had been paying his respects to Mrs. Felt, to which Bannister objected. It is said that Lawrence had attempted to accompany the woman home. When Bannister expressed his objections, a fight ensued. Lawrence was stabbed four times by Bannister, who in turn was shot down by Lawrence, four balls penetrating vital spots in his body. Since the shooting the aged man had been in a serious condition and for several days it has been known that he could not recover. Lawrence, who is also suffering from his wounds, and of course the loss is a total one though they are not serious, will be

arrested on the charge of murder.

Walter W. Meadows Missing.
The whereabouts of Walter W. Meadows, who left home Saturday, July 4, is still unknown. The only information that his wife had of his going was when she received a note saying that he had gone for parts unknown and that she would not hear from him for a year or more. He took with him his oldest son, aged ten years. From Mayfield he went to Paducah and nothing has been heard of him since he reached that city. The presumption is that he has gone to California, where his father resides.

The sudden leaving of Meadows was a surprise to his friends and a shock to his wife and relatives. He has six small children. Mrs. Meadows is the daughter of Jones Sawyers, of Hickory Grove, and she and her five children have gone there to make their home.

Meadows was formerly a rural mail carrier, but several months ago was let out along with several others. Since that time he has been running a carriage line, having purchased the backs and horses from Jerry Reaser. He was thought to have been doing well, but it is alleged that he told some of his friends that, on account of such heavy competition, there was no money in operating an exclusive carriage line.

He and his wife married twelve years ago and have always lived happily together and no friction had ever disturbed the domestic circles.—Measager.

Fire Destroys Big Mill at Lowes.
The big flouring mill of Mr. Diak Hefer at Lowes was burned to the ground at a loss of about \$5,000. There was no insurance on the mill, and of course the loss is a total one to Mr. Hefer. So far he has no clue

to the cause of the fire, and does not know how it originated. The burning of this mill is quite a loss to that community, as it has always been convenient to the people and has made good flour and meal.

River stage at 7 o'clock this morning was 14.3, a fall of .5 since yesterday morning.

The steamer Dick Fowler got away on time this morning for Cairo with a big trip of freight and passengers. She will return at 7 o'clock tonight and make a church excursion out at 8 o'clock for a two hours' run on the river.

The George Cowling made her two regular trips today from Metropolis with big crowds of passengers and a big trip of freight.

The steamer Clyde arrived from Waterloo, Ala., and all way landings last night at 7 o'clock, with 6 cars of lumber for Brookport and Metropolis, and 70 hogheads of tobacco for Joplin. She went on down the river last night to unload and returned this

morning and is receiving freight preparing to leave on a return trip Wednesday evening at 6 o'clock.

The Royal made her regular trip from Golconda and return today doing a big passenger and freight business each way.

The Joe Fowler did not make a trip yesterday, but arrived today from Evansville and returned with a big trip of freight and passengers each way.

The City of Saltville arrived from Waterloo, Ala., today with a big trip of passengers for St. Louis. She was here two hours before going on to St. Louis.

The City of Savannah will be in late tonight or early in the morning from St. Louis on her first trip of the season up the Tennessee river.

The H. W. Huttoff will be in tonight from Clarksville and will leave tomorrow at 12 o'clock for Nashville and all way landings. She will return next Sunday afternoon.

The Chattanooga will be in tomorrow from Riverport, Ala., and all way landings, and will return leaving here at 5 o'clock Friday evening.

The J. R. Finley got away for New Orleans light yesterday afternoon at 5 o'clock. She will return with a tow of empty coal boats and barges.

The Pavoia arrived from the Tennessee yesterday afternoon with a tow of ties for the Ayer & Lord Tie company. The Pavoia got away this morning for the Cumberland after another tow of ties for the Ayer & Lord Tie company.

The Russell Lord arrived at 8 o'clock this morning from White river. She brought a tow of ties with her and left them at Ironport for the Ayer & Lord Tie company.

The towboat Homer arrived this morning just ahead of the Russell Lord from White river with her fuel flat. The Homer has been towing

ties in White river for two months for the Ayer & Lord Tie company.

The Russell Lord will return to White river tomorrow after another tow of ties.

The I. N. Hook got away this morning for the Cumberland river after a tow of ties for Paducah.

The Cutaway II was launched in the Ohio river yesterday afternoon at 5 o'clock. She is one of the finest specimens of the gasoline boat in the Paducah harbor and is owned by Capt. E. A. Wait and Mr. Frank Mantz. The boat was built at Sherrill & Russell's lumber yard. She is 32 feet long with a 6-foot beam, built out of Louisiana red cypress and is finished in natural oak. She is built to carry 30 people comfortably. The engine will be put in the new boat tomorrow and she will be in running order Thursday. The engine is 15 horse power and is guaranteed to propel the boat at the rate of 12 miles per hour. Many compliments have been paid Capt. A. Wait for his designing of such a neat boat.

The Russell Lord had another streak of bad luck on her last trip to White river. She left her fuel flat of 4,000 bushels of Pittsburg coal at Memphis, while she went on down after her tow, and during her absence and through the negligence of the watchman, the flat turned turtle and all the coal was dumped in the Mississippi river. The loss is about \$600. This is the second flat the Russell Lord has had to turn turtle inside of a month's time. The other flat turned turtle here in the Paducah harbor. The loss will be to the Ayer & Lord Tie company.

Official Forecasts.
The Ohio at Evansville will continue rising during the next 36 hours. At Mt. Vernon will begin rising this day. The Paducah will continue rising the next 36 hours.

Cairo will continue falling for several days.

The Tennessee at Florence will rise slightly during the next 12 hours. At Johnsonville no material change during the next 36 hours.

The Mississippi from below St. Louis to Cairo will fall slowly during the next 36 hours, and more rapidly thereafter.
